CONSPIRACY TO DEFRAUD. GOOD TONE TO TRADING.

Beavers Gives Himself Up Here on Bench Warrant Under New Indictment and Furnishes More Bail.

11.--United WASHINGTON, Sept. States District-Attorney Beach to-day in the seven indictments returned by the Grand Jury last Tuesday are Georg-W. Beavers, former chief of the Division of Salaries and Allowances, Post-Office Department; August W. Machen, former general superintendent of the free-delivery system. Post-Office Department; James W. Erwin, former Post-Office Inspector, with headquarters in San Francisco; George H. Huntington, and Isaac S. McGiehan, both of New York City. owners of the Columbia Supply Company, of that city, and Eugene D. Scheble, of Toledo, O., a dentist and interested in the firm of Maybury & Ellis, of Detroit, Mich., letter-box manufac-

Beavers, Machen and Erwin are named jointly in one indictment for conspiracy to defraud the United States. Another indiotment is against McGieban, Huntington and Machen for concy to defraud the United States, and still another is against the same three for conspiracy to commit bribery, oth under Section 5.440, Revised Statutes. Scheble and Machen are indicted jointly for conspiracy against the United States and again for conspiracy to commit bribery. Another indictment is against McGiehan and Huntington for bribery, and the last is against Machen singly for accepting bribes, under Section 5,501, Revised Statutes.

All the indictments are based on transactions relating to the supply of etter-boxes and package boxes and devices. Some sensational charges are made. The indictment against Beavers, Machen and Erwin alleges that the Postal Device and Improvement Company, of San Francisco, for-merly the Montague Indicator and Box Company, was composed almost entirely of western postal employees; that in 1889 it set aside 1,000 ires of stock for "forwarding its insts" and that armed with this pudson, and Inspector Erwin came to ashington, saw Heavers, Machen, eath and others and got an order for uipping 2,089 letter-boxes with their wice.

device.

The indetment says the company was systematically relieved of its oilgations in the way of paying freight,
Grating, painting and printing cards for the devices it was furnishing. The indictment charges that Beavers and
Machen owned stock under assumed haupes. Most of the thousand shares of
stock set aside, the indictment says,
went to different post-office officials and
again President Richards came to
Washington, and following an increase in the contract price he got for the
stock.

The first named was the strong issue of the day, while the other two were weak and fell to new low records. Trading which gave promise in the morning fell away in the afternoon to the usual stage of

The sentiment, however, was good following heavy buying of Atchison at mid-day, prices being held all around The Atchison purchases owed their effect on opinion generally to the fact that they seemed to come from a common source, and were executed mostly by two or three of the larger brokerage houses. Wall street has been extremely skeptical of the Atchison movement all along, preferring to explain the strength of the stock by the combination of an excessive shor interest and a limited floating supply To-day's developments, however, appeared to put skeptical short sellers to too great a test, and many of them beat a hasty tretreat. Their example was followed in other parts of the list, especially after the indications that the Atchison buying was extending to Union Facine and one or two other of the active issues.

Offerings of steel were heavy early in the day and the sentiment bearish on the admission of the officials of the corporation that business is not so good as last year, though not enough less to create concern, was accepted by Wall street as meaning that a turn in iron trade conditions has arrived.

United States Steel common sold down to 19 718, new low figures. After opening unchanged at 20 1-8, if sold to 20 1-4 and was later offered at 20. For some time that figure had been the danger line of that stock. The Steel issues closed with a gain of from 5-8 to 3-4 over on the day. The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life.

Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

JUST HOW STRONG ARE THE OPPONENTS OF LOW.

In view of the fact that John C. patronage had not been distributed. In Sheehan and William Hepburn Russell several districts the Greater New York are the leaders of the revolt against the renomination of Mayor Low, the organization. Tammany and Republican question has arisen, "What is the voting machine men say that Mr. Sheehan's strength of the Greater New York De-

On this point there is a wide diver-gence of opinion. William Hepburn Russell said yesterday that the organitration controlled 30,000 votes. That estimate is not seriously considered by those who have watched the progress of politics in New York for the past two

There was no way of telling what percentage of the Low vote the G. N. Y. D. cast in the last municipal election, because the votes could not be separated. The first real test of the strength of the organization came last fall, when it had a place on the ticket. It barely nanaged to squeeze through the 10,000 votes necessary to preserve its life as a party factor.

crowd would have difficulty in mustering 2,500 votes should it be decided to have the Greater New York Democracy support Mayor Low.

There is no line on the Kings County Democracy—the Sheehan adjunct across the river. It was formed only three months ago with an alleged membership of 10,500. Perhaps it might muster 1,500 votes.
